Skills

Languages	Python, JavaScript, Groovy, SQL
Frameworks	Django, Flask, Backbone.js
Tools	Git, Docker, Locust, Ansible, Jenkins, GoCD
Services	AWS, Travis CI, Splunk, Transifex, Heroku

Experience

Software Engineer at [edX](#)

July 2014 to present

Collection of open source Python/Django web applications, some with Backbone.js frontends. Built and maintained ecommerce service handling millions of orders and processing millions of dollars in payments a year. Developed and supported system for creating, running, and awarding credentials for edX's program-based offerings. Load tested a variety of new applications and features using Locust. Automated translation of application text using Jenkins and Transifex. Automated monitoring of application logs using Splunk alerts.

Freelancer at [The Economist](#)

December 2013 to November 2014

Created data visualizations for use by the paper, online and in print.

Intern at [edX](#)

May 2013 to June 2014

Implemented in-context problem scoring. Built lightweight A/B testing framework using Django Waffle. Configured the platform to report analytics information to Google Analytics and Mixpanel. Performed analysis of edX certificate data and conducted user studies with edX learners.

Research Assistant at [UCSD Microelectronic Embedded Systems Laboratory](#)

May 2012 to August 2012

Tasked with porting a real-time operating system to an ARM Cortex M3 board with 8K SRAM and no interrupts, custom-built for MESL as part of the UCSD Variability Expedition. Programmed in C, ARM assembly, and hex. Manually translated ARM scatter files to C linker scripts to configure memory on the chip.

Summer Analyst at [Morgan Stanley](#)

May 2011 to August 2011

Conducted market research for the Media & Communications Group in Morgan Stanley's Investment Banking Division. Rewrote internal knowledge management wiki and catalogued data for the Business Information Services Division. Offered the Richard B. Fisher scholarship and invited to return to Morgan Stanley's Institutional Equities Division.

Education

Bachelor of Arts in Computer Science

Harvard College, May 2014
